

BORPAINT UNIVERSAL PRIMER

ACRYLIC EMULSION BASED CONCENTRATED PRIMER

It is an acrylic copolymer emulsion based, transparent, universal primer used for interior and exterior purposes.

FEATURES: It penetrates the surface very well. By preparing a solid surface, it binds the last coat of paint to the surface, reduces the paint consumption, and reduces the water absorbency of the plasters. In addition, it is a primer with very high adhesion performance in water-based waterproofing materials and wall putty applications.

USAGE AREAS: It is used on concrete, gas concrete, plaster, plaster and similar raw walls, old lime-washed, emulsion-based old interior and exterior painted surfaces.

Technical Specifications:

Density	1,00	Color	Transparent	Coating Power	App. 12 - 15 m ² with 1 liter
Viscosity	74	View	-	Thinning Rate	10% and 30% with water
Solid Weight	%33,07	Standby Time Between Floors	2 hours	Method of Application	Brush, Roll
PH	8,16	Drying Time	20 °C - 30 minutes	Packing	7,50 Lt. / 15 Kg.

APPLICATION METHOD: All kinds of oil, dirt, swelled layer and sand grains in weakly adhered plaster or screed should be removed from the surface on fully dried surfaces to be applied. Before the application, swollen, loose and unhealthy looking surfaces should be scraped, oil and dirt should be cleaned by wiping with water. If the salt on the surface continues, the application should not be done until the causes are eliminated. Before using BORPAINT UNIVERSAL PRIMER, it is mixed thoroughly until it becomes homogeneous and thinned with 7 times the volume of water. It is applied to the surface with a brush or roller and applied as a single layer. Paint or insulation product application should be started after the primer has a minimum drying time of 4 hours.

CONSUMPTION: 100 – 300 gr/m² depending on the surface in one coat.

MATTERS TO BE CONSIDERED: Surface and air temperature must be minimum +5C and maximum +30C in applications. It should not be applied in very windy and direct sunlight. It should be stored in a cool place and protected from frost.

SAFETY WARNING: Keep out of reach of children.
